

SelectF

Fiberglass Panel Filters

OVERVIEW

Pamlico Air's SelectF air filters are cost-effective and efficient disposable panel filters. These filters were created specifically for commercial and industrial applications requiring a light-medium workload. The SelectF features a durable construction Kraft board channel frame. These easy-to-install filters are environmentally friendly and made in the USA.

CONSTRUCTION

Pamlico Air offers these disposable panel filters with fiberglass media in a moisture-resistant, Kraft board channel frame. The SelectF is available in one- and two-inch depths as well as custom sizes.

APPLICATION

The SelectF air filters should be used in applications that require light-medium duty filtration and should follow a change-out schedule of every 30 days. Applications that would benefit from the SelectF air filters include schools, hotels, commercial office buildings, hospitals, pharmaceutical plants, laboratories, and other facilities.

ADDITIONAL OPTIONS

- SelectFDC & PDC – Reinforced panel filters (See DS2SEL)
- Prime8 – MERV 8A pleated filters (See DS208)

PRODUCT SPOTLIGHT

- Durable Kraft board channel frame
- Environmentally friendly
- Available in 1"
- Max operating temp: 150°F
- Made in the USA
