TL2, TL4 & TL6 Elite HVAC Mini Pleat Filters

TL2, TL4 & TL6 ELITE

The Thin Line Series Elite filters are extended surface mini pleat filters with fiberglass media, created for use in commercial and industrial applications where medium to high efficiency filtration is necessary. Available in MERV 11, 13, 14, 15 and 16 these filters come in nominal depths of 2, 4 and 6 inches. They are especially suited for use in VAV (variable-air-volume) systems. Thin Line Elite filters come in multiple styles including plastic frame or beverage board frame as well as headered or box style. Their compact design promotes maximum air flow, while their lighter weight allows for ease of storage, handling, and change-outs.

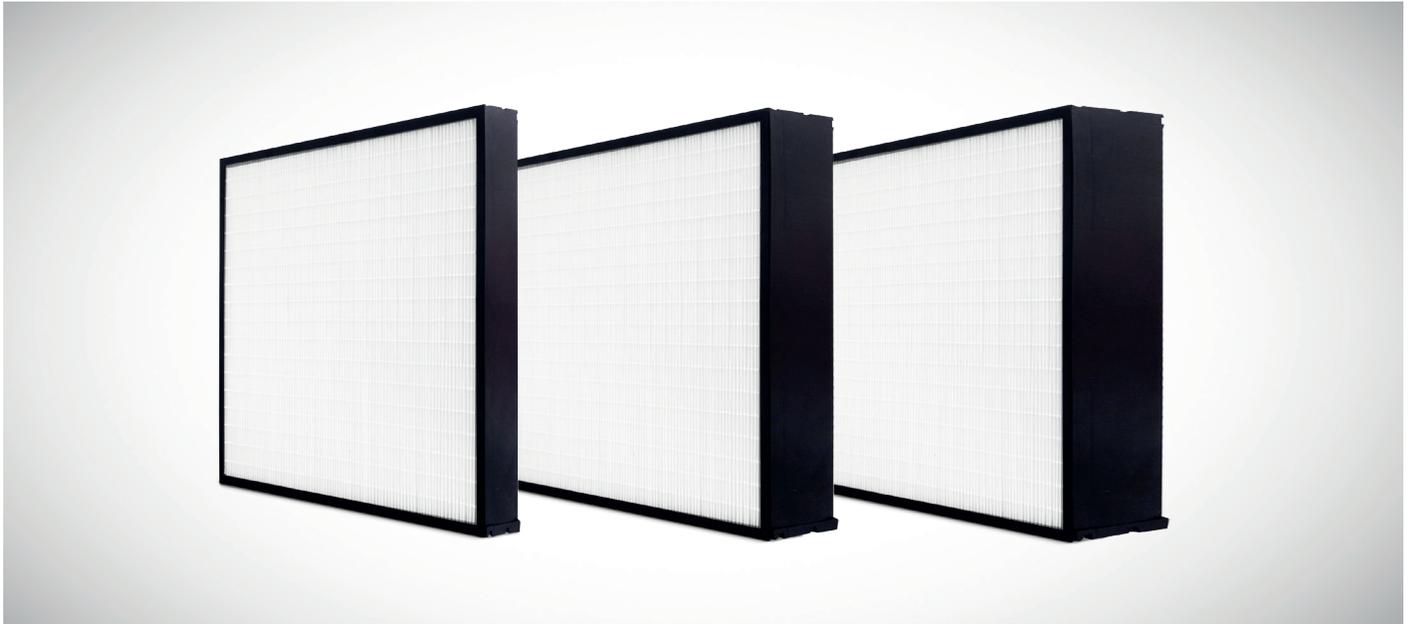

- Available in MERV 11, 13, 14, 15 and 16
- Available in 2", 4" and 6" depths
- Light weight for easy handling, storage and disposal
- M16 available in 4" and 6" depths
- Temperature rating up to 175°F

TL2, TL4 & TL6 Ultra HVAC Mini Pleat Filters

TL2, TL4 & TL6 ULTRA

The Thin Line Series Ultra filters are extended surface mini pleat filters with synthetic media, created for use in commercial and industrial applications where medium to high efficiency filtration is necessary. Available in MERV 11, 13, 14, 15 and 16 these filters come in nominal depths of 2, 4 and 6 inches. They are especially suited for use in VAV (variable-air-volume) systems. Thin Line Ultra filters come in multiple styles including plastic frame or beverage board frame as well as headered or box style. Their compact design promotes maximum air flow, while their lighter weight allows for ease of storage, handling, and change-outs.

- Synthetic media
- Available in MERV 11, 13, 14, 15 and 16
- Available in 2", 4" and 6" inch depths
- Light weight for easy handling, storage and disposal
- Temp rating up to 175°F

Additional HVAC Products

PROCELL HVAC BOX FILTERS

- Available with fiberglass or synthetic media
- MERV 11, 13, and 14 efficiencies
- Plastic and metal frame options

PROCELL PLUS HVAC BOX FILTERS

- ASHRAE, HT and MIF options available
- MERV 11, 13, and 14 efficiencies
- Galvanized frame
- Aluminum media separators

PROPOCKET HVAC BAG FILTERS

- Fiberglass and synthetic media
- Reliable, proven and trusted performance
- Trusted span stitch pocket construction
- MERV 10 to MERV 15 efficiencies
- Available with dual stage and layered media

MANN+HUMMEL is committed to continual product development - all descriptions, specifications and performance data are subject to change without notice. MANN+HUMMEL products are manufactured to exacting criteria - there can be a $\pm 5\%$ variance in filter performance.
