

Synsafe Media is a fully synthetic electrostatically charged filter media for air filtration, especially HVAC. This media can be applied as filter mat, pocket filter or framed pre filter. Depending on size, flow velocity and configuration, different filtration efficiencies can be achieved.

7280

Media weight:	330 ± 26 g/m ²
Media thickness:	54 ± 4 mm (0,1 kPa)
Fiber:	PET/ Co-PET
Colour:	White and blue

Revision Date: 2022-10-12
